

GIS Solutions

Mallon Technology have been providing our customers with GIS expertise and tailor made solutions since 1995.

We have one of the largest and highly qualified data capture teams in Ireland with vast experience in GIS data capture at both local and national government level throughout Ireland and Europe.

Mallon Technology provide people, training and consultancy services to ensure our customers get the most out of their geographical information.

We operate in compliance with the ISO 9001:2008 standard. The ISO standard confirms that our customer focus and business processes adhere to the most stringent quality control standards observed worldwide and asserts our commitment to continual service and company excellence.

Mallon Technology supply a broad range of mapping and GIS related services, delivering bespoke solutions where required.

We offer a full range of expert services and solutions in the following areas:

- End-to-end Geographical Information Systems
- Web-based solutions
- Systems Analysis, Integration and Maintenance
- Software Architecture Design, Customisation and Coding
- Post Implementation Review
- Database Design and Development
- Digital Mapping
- Data Capture and Conversion
- Geo-Referencing
- GPS Surveying
- Training and Consultancy
- GIS Data Quality Control
- Pilot Studies
- User Needs Analysis
